Is your hardware just too slow and outdated but you are happy with your software? Did a major part just die and its cost plus labor is a good percentage the cost of a new system? For those who weren't budgeting on a new PC, *here's our solution: a new PC.* At additional labor cost, we'll transfer your current retail Operating System or sell you a new one. Same software with all-new, fast hardware and a brand spankin'-new warranty.

**DVD BURNER**  
**500 GIG HARD DRIVE**  
**8 gigs DDR4 RAM**

**NO OPERATING SYSTEM\***

**INTEL 3.3 GHZ**

**NO CHANGES OR EXCEPTIONS ALLOWED.**

**\*OS / DATA TRANSFER EXTRA.**

**1 YR INSTORE PARTS WARRANTY.**

**\$399**
